### "Vegetables"

Radish, carrots, turnip, cucumber, tomato and peppers okra sprouts chives

- Cabbage, Chinese cabbage, lettuce CIGNA bean sprouts asparagus mizuna, parsley and celeryBroccoli, mitsuba-komatsuna, Bok Choy, cauliflower

### "Fruits"

Melon and pineapple-watermelon-Kiwi-Tangerine-grapefruit-PEAR-Orange

- Tap Kang Citron kumquat strawberries apples grapes sudachi Cabos

### "Mushrooms"

- Enokidake shiitake mushrooms shimeji

### "Seaweed"

Wakame seaweed,Buncombe,Sargassum fusiforme

"Nutritional Information" per 100 ml

- Energy 131 Cal • Protein 0.3 g
- Fat 0.1 g • Carbohydrate 32.5 g
- Sodium 11.9mg

Trade names	
Raw natural Enzyme	
Net	Product
720ml	Glass Bottle
Commodity classification (name)	
Vegetable fermentation extract (soft drinks)	
Number of pieces per case	suggested retail price
16 bottle (8bottles x 2)	Abottle 7,200JPY (tax excluded)
Distributor	HA-LIFE JAPAN Co., Ltd.
JAN(Japanese Article Number) cord	4560465170039

# product features

- Doctoral and professional conduct clinical and analytical constituents, including Presented as scientific evidence.
- obtained DR evidence of knowledge acquisition
- Because conventional plant fermentation broth with vegetable kefir, enhancing the power of fermentation ingredientsIs drinking outcomes easier to get at an early stage.
- Enzyme compelling visceral organs, such as emissions of internal cleansing, improved liver toxins in the body,relieve constipationIt is a beverage.
- Also need enzymes in, such as calorie restriction, take the enzyme drink
- Diabetes trend could not even became easier to ingest.
- (Notice : Always consult your physician before beginning )

# New products (Raw natural Enzyme )

This document is regulated as a company secret.

- **Raw enzyme natural** is the fermented drinks of an authentic vegetable Property which fermented the extract which fermented 74 or more kinds of a vegetable, fruit, seaweed, and mushrooms to the first fermentation (lactic acid bacteria) in two steps of special techniques further fermented to the second fermentation (yeast fungus).

Since the good plant-origin-lactic-acid-bacteria kefir is blended with this fermentation extraction extract with sufficient balance, An intestinal environment is improved, a detox action can also hope rather than a common enzyme drink, and since the fermentative production substance indispensable to cosmetics and health is included abundantly, the organic acid etc. which were made in the vitamin, mineral, and fermentation stage which materials, such as vegetables and fruit, have influence in total.

Since it is holding down raw natural enzyme to the level of 30% while 60% order also has sugar of the enzyme drink which is seen in many other companies and which was manufactured by candied food fermentation, in low calorie content, it is palatable and they are the optimal fermented drinks for cosmetics and health.
